

#1 IN DURABILITY

PERFORMANCE WORK GLOVES

THE VERY BEST IN TECHNICAL HAND PROTECTION

INDEX OF GLOVES

At Youngstown Glove Company our Mission is to make the very best in technical hand protection. We are unwavering in our commitment to superior craftsmanship, superb quality and excellent customer service. We were founded in 2002 with a small line-up of performance work gloves. Today, we offer over 45 styles of work gloves that exceed the demanding needs of professional workers. Every Youngstown style that is developed goes through extensive testing - both in the laboratory and in the field - prior to making it to our customers. Our thorough testing, proven patterns, innovative materials and meticulous quality control ensure that Youngstown is truly **#1 in Durability.**

GENERAL USE ALL SEASON SERIES 54 - 61

LEATHER ARC RATED LINEMAN LEATHER PROTECTOR SERIES

Leather Protectors, worn over rubber insulating gloves, have seen little design change since their OSHA-mandated use started in the 1950's. Most producers of leather protectors use the same working glove pattern invented in the 1870's. Youngstown's Leather Protectors have taken an entirely new approach by creating an ergonomic glove pattern that fits perfectly over rubber insulating gloves while staying within the parameters of ASTM F696. This innovative design provides greater fit, dexterity and comfort, and eliminates the problems caused by ill-fitting protectors. We produce these gloves with premium grade grain leather. Our protectors are arc rated and finished with an FR Strap System to ensure nothing on the glove will drip, melt or ignite.

WARNING: Leather Protectors are to be used only for mechanical protection over insulating rubber gloves, and shall not be used for electrical protection per ASTM F696.

10" SECONDARY LEATHER PROTECTOR

SKU # 16-4100-10

This Arc Rated 10" Secondary Leather Protector is ergonomically designed to fit perfectly over Class 0 and 00 rubber insulating gloves per ASTM F496/ASTM F696. We use the highest quality goat grain leather along with an innovative glove pattern to create a leather protector with unrivaled fit and dexterity. This glove features an FR Strap System to ensure that nothing on this protector will drip, melt or ignite if exposed to an arc flash. Arc rated to 25 cal/cm².

10" CUT RESISTANT SECONDARY LEATHER PROTECTOR

SKU # 16-4200-10

This cut and flame resistant 10" Cut Resistant Secondary Leather Protector is ergonomically designed to fit perfectly over Class 0 and 00 rubber insulating gloves per ASTM F496/ASTM F696. We use the highest quality goat grain leather along with an innovative glove pattern to create a leather protector with unrivaled fit and dexterity. The glove is lined throughout with Kevlar® fiber by DuPont™ to provide enhanced cut, puncture, flame and arc resistance. We finish the glove with an FR Strap System to ensure that nothing on this protector will drip, melt or ignite if exposed to an arc flash. Arc rated to 36 cal/cm².

FEATURES AND BENEFITS

- ANSI/ISEA Puncture Level 3
- Arc Rating: 25 cal/cm² – ASTM F2675 / F2675M-13
- Will NOT drip, melt or ignite if exposed to arc flash
- FR Strap – woven webbing made with Kevlar® by DuPont™
- FR Fastener – heat stabilized heavy duty hardware
- High quality 0.6-0.9mm goat grain leather
- Designed for use over Class 0 and 00 rubber insulating gloves per ASTM F696

13" SECONDARY LEATHER PROTECTOR

SKU # 16-4100-13

This arc rated 13" Secondary Leather Protector is ergonomically designed to fit perfectly over Class 0 and 00 rubber insulating gloves per ASTM F496 / ASTM F969. We use high quality and tacky goat grain leather on the upper portion along with a cow suede cuff. We finish the glove with an FR Strap System to ensure that nothing on this protector will drip, melt or ignite. Arc Rated to 25 cal/cm².

13" CUT RESISTANT SECONDARY LEATHER PROTECTOR

SKU # 16-4200-13

This 13" Cut Resistant Secondary Leather Protector is cut, flame and puncture resistant and Arc Rated to 36 cal/cm². Our ergonomic, 3D glove pattern is designed to fit perfectly over Class 0 and 00 rubber insulating gloves per ASTM F496 / ASTM F696. The glove is lined throughout with Kevlar® fiber by DuPont™ to provide enhanced cut, puncture, flame and arc resistance. This glove also features an FR Strap System and cow suede cuff to ensure nothing on this glove will drip, melt or ignite.

FEATURES AND BENEFITS

- ANSI/ISEA Puncture Level 3
- Arc Rating: 25 cal/cm²
- Will NOT drip, melt or ignite if exposed to arc flash
- FR Strap – woven webbing made with Kevlar® by DuPont™
- FR Fastener – heat stabilized heavy duty hardware

ARC RATED

ALL SEASON SERIES

Youngstown's Arc Rated Gloves are a ground breaking line of advanced hand protection designed for utility workers. Most of this line is made up of very unique leather gloves where we used our modern ergonomic glove patterns and applied them to extra high quality leathers. We have expanded this offering of technical leather gloves to include items with additional protection such as flame resistance, cut resistance and our waterproof / windproof protection. The result is increased dexterity, comfort, productivity and safety for workers.

WARNING: Youngstown's Arc Rated gloves and Leather Protectors do NOT protect against shock or voltage.

GROUND GLOVE

SKU # 12-3265-60

The Ground Glove is Youngstown's most popular leather glove and offers comfort, dexterity and lasting durability. We use extra high quality goatskin leather which has been tanned provide grip, softness and abrasion resistance. The ergonomic, 3D pattern form-fits to the hand for excellent dexterity and fit. We sew a second layer of leather in all of the critical wear areas to enhance the durability. The glove is Arc Rated to 23 cal/cm² and is Puncture Level 4.

FEATURES AND BENEFITS

- ANSI/ISEA Puncture Level 4
- OSHA 29 CFR Part 1926 Compliant
- NFPA 70e-2018 Compliant
- Arc Rating: 23 cal/cm² – ASTM F2675 / F2675M-13
- Will not drip, melt or ignite if exposed to sparks or flames
- Ergonomic, 3D pre-curved pattern for excellent dexterity and comfort
- 18 oz/yd² high quality goat grain leather
- Double layering at palm, saddle, knuckles and fingertips enhances durability and protection
- Double stitched throughout with specialty Coats® thread

Double Layer Leather

Superior Dexterity

FR EMERGENCY GAS GLOVE

SKU # 12-3390-60

The world's first protective, flame and heat-resistant glove designed specifically for emergency gas operations. The glove is made of the world's finest FR fabrics and features an extended 7" x 8" gauntlet cuff that easily integrates with FR coverall sleeves to ensure total hand, wrist and forearm safety. This groundbreaking glove is flame resistant, heat resistant, cut resistant, anti-static, high visibility and won't shrink during flame exposure.

FEATURES AND BENEFITS

- ANSI/ISEA Cut Level A3
- Flame Resistant per industry standards according to test method ASTM D6413 and EN 407.1 (Level 4)
- Contact Heat: Palm withstands 482° F for 15 seconds without causing pain or 2nd Degree burn (EN 407.2)
- Convective Heat: Interior of glove withstands heat from a 2,000° F flame for 18 seconds before a 2nd degree burn would occur (EN 407.3)
- Radiant Heat – Interior of glove withstands radiant heat of 572° F for 96 seconds before a 2nd degree burn would occur (EN 407.4)
- Less than 2% shrinkage after 4 seconds of being fully engulfed in a 2 cal/cm² flame
- Anti-Static – EN 1149
- Arc Rating: 28 cal/cm² – ASTM F2675 / F2675M-13
- Outer shell made of FR Nomex® IIIa by DuPont™
- Palm is made of FR schoeller® works for heat, flame and abrasion resistance
- Thermal layer of FR Nomex® for added thermal protection against heat and flame
- Innermost liner made of 100% Kevlar® fiber by DuPont™ is flame and cut resistant
- Reflective FR 3M™ Scotchlite™ used throughout the top and cuff for increased visibility and awareness
- 7" x 8" gauntlet cuff fits easily over FR coveralls and provides added wrist and forearm protection

KNUCKLE BUSTER ANTI-VIBE

SKU # 11-3210-10

This is an arc rated leather work glove that features both top of hand impact protection and palm side anti-vibration properties. Heavy duty goatskin leather is used throughout the entire glove and sewn into an ergonomic, 3D glove pattern for excellent dexterity and comfort. The palm and knuckle both feature an inner layer of Flame Resistant Gel Padding. This gel dampens vibration and protects against heavy impact. The entire glove is arc rated and will NOT drip, melt or ignite if exposed to sparks or flames.

FEATURES AND BENEFITS

- ANSI/ISEA Puncture Level 4
- OSHA 29 CFR Part 1926 Compliant
- NFPA 70e-2018 Compliant
- Arc Rated to 23 cal/cm² – ASTM F2675 / F2675M-13
- Ergonomic, 3D pattern form-fits to hand for great comfort and dexterity
- High quality goat grain leather used throughout the entire glove
- Double layered goat grain leather palm for lasting durability
- Double stitched throughout with specialty Coats® thread
- FR Gel Padding on top of hand and palm
- Reduces vibration from impact and vibrating tools
- Will NOT drip, melt or ignite if exposed to sparks or flames

WINTER ARC/FR

COLD WEATHER PROTECTION SERIES

Youngstown's FR Waterproof Winter Gloves offer great protection from winter weather and job hazards. These models feature a triple layer technology made of a rugged outer glove, waterproof membrane and innermost liner of 100% Kevlar® fiber. We also add varying weights of FR Nomex insulation for added warmth. This combination creates a durable, warm work glove that is also cut, flame and puncture resistant with higher arc ratings.

WARNING: Youngstown's Arc Rated gloves and Leather Protectors do NOT protect against shock or voltage.

FR WATERPROOF ULTIMATE

SKU # 12-3290-60

The premier winterized, waterproof winter glove with unmatched protection from cold, wet weather and job hazards. Waterproof. Winterization. Flame Resistant. Arc Rated. Cut Resistant. This award-winning glove features an ergonomic, 3D outer shell made of flame and oil resistant cow grain leather. Next is a waterproof and windproof membrane to ensure your hand stays dry. 200g FR Nomex Insulation is added to ensure superior warmth in cold weather as well as thermal protection against flame and heat. Made with 100% Kevlar® fiber by DuPont™ to add a final layer of cut and flame protection. This glove is ideal for anyone facing harsh winter conditions and job hazards.

FEATURES AND BENEFITS

- FR winterization featuring 200g FR Nomex Insulation for extra warmth
- ANSI/ISEA Cut Level A4
- ANSI/ISEA Puncture Level 4
- Flame Resistant per industry standards according to test method ASTM D6413
- OSHA 29 CFR Part 1926 Compliant
- NFPA 70e-2018 Compliant
- Arc Rating: 55 cal/cm² – ASTM F2675 / F2675M-13
- Ergonomic, 3D pre-curved performance glove pattern for excellent dexterity and comfort
- Outer shell made with flame and oil resistant cow grain leather
- Waterproof and windproof inner membrane keeps hands warm and dry conditions
- Completely lined throughout with 100% Kevlar® fiber by DuPont™

FR RAIN GLOVE

SKU # 12-3495-60

This unique work glove is the world's first FR Rain Glove, designed specifically for use in heavy rains. We use special membrane technology that bakes the liner into the outershell of the glove to create a perfect waterproof barrier with no sliding or bunching. Further, the goatskin leather is tanned in a process that makes it water resistance as well so that the rain will not collect on the leather. Made with 100% Kevlar® fiber by DuPont™ to create a highly protective glove. Not only does it keep you dry in heavy rains but it is cut resistant, puncture resistant, flame resistant and Arc Rated to 53 cal/cm².

FEATURES AND BENEFITS

- ANSI/ISEA Cut Level A2
- ANSI/ISEA Puncture Level 4
- Flame Resistant per industry standards according to test method ASTM D6413
- OSHA 29 CFR Part 1926 Compliant
- NFPA 70e-2018 Compliant
- Arc Rating: 53 cal/cm² – ASTM F2675 / F2675M-13
- Ergonomic, 3D pattern for increased dexterity and comfort
- Sueded reinforcement for durability and greater grip in wet conditions
- Waterproof goat skin outer shell
- Technology to ensure 100% waterproof protection
- Completely lined throughout with 100% Kevlar® fiber by DuPont™

FR FLEECE GROUND GLOVE

SKU # 12-3575-60

Youngstown's FR Fleece Ground Glove is the glove every Ground Glove user should have for colder temps. FR fleece and a soft microfiber liner combine to keep your hands warm and dry during moderate cold climate and work situations. The high quality goat leather is WR-treated leather, with non-treated suede leather patches that maintain and enhance strong grip. The FR Fleece Ground Glove is strategically reinforced at critical wear areas such as the palm, thumb, and forefingers. No bunching or sliding feel with these performance work gloves, they fit securely with a slip-fit cuff. Fit and comfort are a premium, built from Youngstown's ergonomic three-dimensional pattern designed to keep you safer and more productive for longer.

FEATURES AND BENEFITS

- ANSI Cut Level A2
- ANSI Puncture 3
- Water Resistant Leather
- FR Microfleece Inner Liner
- Flame Resistant per industry standards according to test method ASTM D6413
- OSHA 29 CFR Part 1926 Compliant
- NFPA 70e-2018 Compliant

FR FLEECE LINER WITH POLARTEC®

SKU # 12-3565-60

A flame resistant glove liner designed to be worn underneath work gloves and/or rubber electrical gloves for additional warmth and comfort while working in cold conditions. The liner is made of Polartec® Power Dry™ Double Pique Duel Hazard fabric. This unique fabric is inherently flame resistant and arc rated and offers exceptional moisture wicking properties. Thin, stretchy and protective this liner is sewn with the seams on the outside of the glove to further enhance comfort to the worker. While we originally designed this liner for cold weather use more and more customers are using it under their rubber insulating gloves in hot climates. The wicking properties greatly reduces sweat and sliding inside the rubber gloves.

FEATURES AND BENEFITS

- Made of Polartec® Power Dry® Double Pique Dual Hazard fabric
- Coats™ Proto Plus® Flame Retardant Thread
- Fabric is Arc Rated to 8.6 cal/cm²
- Inherently Flame Resistant, will NOT drip, melt or ignite
- Inside-Out Seams for superior comfort
- Thin, form-fit, stretchable and breathable
- Designed to be worn underneath Youngstown's arc rated gloves and/or rubber electrical gloves
- Pair with performance work gloves, leather protectors and rubber insulating gloves for exceptional comfort, temperature regulation, and sweat and moisture migration.

COLD WEATHER PROTECTION SERIES

Youngstown's Waterproof Winter Gloves offer great protection from winter weather without sacrificing dexterity or comfort. These models feature Youngstown's triple layer waterproof technology made of a winterized liner, waterproof membrane and form-fit outer shell. All of these models are built to withstand rugged work applications but they also offer dual functionality for use in winter recreation activities.

WATERPROOF WINTER PLUS

SKU # 03-3450-80

Youngstown's original waterproof winter work glove. This was a first of its kind product when introduced in 2003 and it revolutionized the winter work glove market. It is the perfect combination of warmth, dexterity and durability and designed for all-purpose winter work. Features a form-fit, reinforced outer shell, 60g 3M™ Thinsulate™, winterization, waterproof membrane and a soft inner liner. Ideal for countless activities in cold, wet wintry conditions.

FEATURES AND BENEFITS

- ANSI/ISEA Puncture Level 2
- Shell, 60g 3M™ Thinsulate™
- Soft microfleece liner against the hand for added warmth and comfort
- 100% waterproof, windproof inner membrane keeps hands dry
- Durable and form-fit outer shell maintains dexterity
- Heavy duty non-slip palm reinforcement enhances grip and durability
- Internal knuckle protection on top of hand
- Terry cloth thumb for wiping away sweat and debris (or cold noses)
- Supportive cuff with adjustable Velcro closure locks out cold

Heavy Duty Non-slip

Waterproof Windproof Winterized

SKU # 03-3450-80
SIZES: S-3XL

WATERPROOF WINTER XT

SKU # 11-3460-60

An insulated, waterproof winter work glove designed for abrasion resistance, warmth and comfort in harsh, wet wintry conditions. Features 200g 3M™ Thinsulate™ for added warmth and a waterproof and windproof membrane to keep hands dry. The glove has an extended gauntlet cuff allowing the wearer to tuck his jacket sleeve under the cuff to lock out cold. Designed for winter work, but also works for winter recreation.

FEATURES AND BENEFITS

- Shell, 200g 3M™ Thinsulate™
- Soft fleece liner keeps hands warm
- 100% waterproof, windproof inner membrane keeps hands dry
- Durable and form-fit outer shell maintains dexterity
- Heavy duty non-slip palm reinforcement enhances grip and durability
- Terry cloth thumb for wiping away sweat and debris (or cold noses)
- Extended gauntlet cuff

At Youngstown Glove Company our Mission is to make the very best in technical hand protection. We are unwavering in our commitment to superior craftsmanship, superb quality and excellent customer service. We were founded in 2002 with a small line-up of performance work gloves. Today, we offer over 45 styles of work gloves that exceed the demanding needs of professional workers. Every Youngstown style that is developed goes through extensive testing - both in the laboratory and in the field - prior to making it to our customers. Our thorough testing, proven patterns, innovative materials and meticulous quality control ensure that Youngstown is truly #1 in Durability.
