Tool Country has established long-standing relationships with the most trusted manufacturers in the industry. This allows us to offer reliable products that outperform other distribution solutions with consistency and competitive pricing.

With our Denver and Kansas City locations we have over 70,000 sq. ft of warehouse space packed with the manufacturers and products you use. We are well known for stocking products that the other guys don't.

We are also a very resourceful distributor vs. the other 'me too' distributors that are out there. We have done a good job securing a lot of propriety products in our offering that provide value to our customers. We also dedicate inventory for our customers, keeping specialty items they want at stocking levels they need.

## INDUSTRIES SERVED

Abatement	GC	Power Utility
Concrete	Glazing	Reclamation/ Erosion Control
Demolition	Insulation	Roofing (KC Only)
Drilling	Landscaping	Steel Erector
Drywall	Manufacturing	Telecom
Electrical	Masonry	Traffic Control
